

## Setting up Dial-up for Win 95 / 98 / ME

- Double click on My Computer
- Double click on Dial-Up Networking

There are two ways to set up your connection  
If another connection already exists do the following:

- Double click the Make New Connection icon
- In the computer you are dialing box, type APEX
- Click the Next button
- In the Area Code box, enter your local area code
- In the Telephone Number box, enter either 02 6245 1500 or 02 6245 1501 (max plan)
- In the Country Code box, select Australia 61
- Click the Next button then the Finish button

Otherwise, use the Connection Wizard :

- In the Welcome to Dial-Up Networking window, click the Next button
- In the computer you are dialing box, type APEX
- Click the Next button
- Leave the Area Code blank and enter either 02 6245 1500 or 02 6245 1501 (max plan)
- In the Country Code box, select Australia
- Click the Next button then the Finish button
