

Setting up Eudora

- Open Eudora
- In Eudora, go to the Tools menu and select Options
- In the Options window, you will see several icons on the left
- Select Getting Started
- In the Real Name field, type your name the way you would like people to see it when they get email from you. For example, John Smith
- In the Return Address field, enter your APEX email address
- In the Mail Server (Incoming) field, enter mail.apex.net.au
- In the Login Name field, enter the first part of your APEX email address
- also enter your Password in the password field
- In the SMTP Server (Outgoing) field, enter mail.apex.net.au
- If there is a check in the Allow Authentication field, remove it
- Click Ok. Now you can send and receive email in Eudora
